I am a passionate Software Engineer with nearly 2 years of experience in full-stack .NET applications. Proficient in collaborating on large-scale projects. Having expertise in frameworks like .NET Core, ASP.NET MVC, and Entity Framework, along with libraries such as Angular. Proficient in C#, JavaScript, and SQL. Currently, working on application with technologies like .Net and Angular as a full-stack developer. Directed Version Control efforts, improving project efficiency by reducing merge conflicts by 25%. Holds a Computer Science degree with a CGPA of 8.2, dedicated to advancing digital transformation and user engagement.

EDUCATION

Bachelor of Technology
ABESIT | Ghaziabad

2019 – 2023,   *8.2 CGPA*

Courses
- Information Technology

Senior Secondary
Dr. MPS World School | Agra

06/2017 - 05/2018,   *80 %*

Courses
- PCM

High School
Dr. MPS World School | Agra

06/2015 - 05/2016,   *95 %*

WORK EXPERIENCE

Junior Software Developer
Windmoller & Holscher India Pvt Ltd | Delhi

01/2023 – Present
Achievements/Tasks

- Worked on frontend side of Screening Ops project. Daily task included was fresh development, unit test the functionality properly, commit the code to GitLab repository, and again test the changes in dev environment.
- Worked on data modelling and handling SQL
- Managed to work on multiple screens using AngularJS components and router.
- Tech Stack: .NET Core, ASP.Net, Angular, EF, Rest API

CERTIFICATES

The Complete Web Development Bootcamp from Udemy

Angular The Complete Guide from Udemy

Foundational C# with Microsoft from freeCodeCamp

Data Structure and Algorithms from Udemy

.NET Microservices Foundation Course

JavaScript from SoloLearn

SKILLS AND INTEREST

C# · .NET Core · Web API · ASP.NET · Angular · CI/CD · MVC · MSSQL · MongoDB · HTML · NATS · CSS · Blazor · Dependency Injection · Entity Framework · JavaScript · Change Stream · SignalR · Git · Microservices · GraphQL · Docker · Unit Testing · Azure

PROJECTS

HRWorld (Jan-2023-July-2023)
- Tech Stack: Angular, MSSQL, .NET Core, ASP.NET Framework, HTML, CSS, JavaScript, Azure
- Developed and implemented a web application to track candidate progress from initial to final shortlisted, including role-based access.
- Created Web APIs, database schema, debugging, unit testing
- Integrated Azure App Service for hosting APIs

Vision 2.0 (August-2023- Present)
- Tech Stack: ASP.NET, MongoDB, Angular, Blazor, Azure, Nats
- Designed and implemented real-time dashboards for monitoring OS processes, directory files, NATS metrics, and sniffing tasks
- Configure Azure DevOps CI pipelines and automated versioning for NuGet packages to streamline deployments.
- Implemented CI pipeline and versioning for NuGet packages in projects.
- Developed a modular, DI-based plugin architecture for NuGet integration and created web clients for visualizing NATS telegram tracing.

ACHIEVEMENTS

Participant in SIH 2022 Hackathon

Selected for Internshala Student Partner Program

Participant in ABESIT CodeChef competition.
